b beatsaudio. ONLY ON HP NOTEBOOKS.

HP ENVY¹⁴ Beats™ Edition notebook PC with Beats Audio™, powered by 2nd Generation Intel® Processor, is engineered for aural perfection. It's been designed to reduce ground noise so what you get is your music and nothing else. Then we rerouted the discrete headphone amplifier for improved stereo separation, ensuring studio quality sound on the go. Since not all notebooks are created equal, here's one that'll let you hear music the way artists intended. It's easy to see how anyone can get addicted.
